Post Conference Report

ICET2ES – 2025, Contributed to Following SDGs

Foreword

Dear Participants,

It gives me great pleasure to share with you the outcomes and results of ICET2ES – 2025, with the theme of " Innovations for Sustainable Development Practices: Engineering, Education, and Economic Perspectives" which was held at Amsterdam, Netherland on 16th & 17th October, 2025. More than 200 people attended the event in person, and more than 300 people watched the live stream online. We were able to actively engage and reach out to a wider spectrum of research communities.

The International Congress on Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities (ICET2ES - 2025), provided a vibrant platform that brings together scholars, educators, and researchers from a variety of disciplines. It is a hub for exchanging innovative research about Engineering and Technology for Sustainability, Digital Transformation and Industry, Communication and Connectivity, Economic and Business Perspectives mainly in the Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities.

We are grateful for the support of many universities and research institutes, whose contributions were vital to the success of this conference. We extend our sincere gratitude and highest respect to the professors who played an important role in the review process, providing valuable feedback and suggestions to authors to improve their work. We also extend our appreciation to the external reviewers for providing additional support in the review process and to the authors for contributing their research results to the International Congress on Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities (ICET2ES - 2025)

1.1 Conference Overview

International Congress on Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities (ICET2ES - 2025), was the place where ideas collided and innovations take the spotlight for the contribution towards achieving Sustainable Development Goals! International Congress on Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities (ICET2ES - 2025) had long been the meeting place for professionals, educators, researchers, policymakers, and industry professionals looking to network, share ideas, and grow in their respective fields. At this Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities conference in Amsterdam, Netherland, academics, researchers, and educators were came together to share their groundbreaking research, and different views, and explore unique ideas from various fields.

Through collaboration, the conference explored intersections between various disciplines and created a dynamic environment to enhance educational discussions and explore diverse studies. This International Conference in Amsterdam, Netherland, was a part of shaping the future of global education. They continued to inspire, transform, and shape education together. Their participation was more than just an RSVP; it is an important role in our community dedicated to academic success and positive change.

1.2 Conference Theme

The theme of the International Congress on Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities (ICET2ES - 2025) “ **Innovations for Sustainable Development Practices: Engineering, Education, and Economic Perspectives** “ was to provide a lively space where different academic areas come together. ICET2ES – 2025 stands as a melting pot of ideas, where the boundaries between advances in Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities disciplines blur, giving rise to innovative solutions that address global challenges. The conference embraces the multidisciplinary nature of educational excellence driving through digital transformation, recognizing that true breakthroughs often occur at the intersections of different fields.

This theme encapsulates the conference's focus on fostering innovation and collaboration across diverse disciplines within Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities. It encourages participants to explore and present cutting-edge solutions that contribute to the sustainable development of industries, addressing challenges and

advancing knowledge for a better future. The multidisciplinary perspective highlights the interconnectedness of various fields in creating holistic and impactful solutions.

1.3 Objectives & Scope of the Conference

The International Congress on Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities (ICET2ES - 2025) aims to bring together academics, researchers, industry professionals, and students from diverse fields to explore cutting-edge advancements and trends across Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities.

Key objectives include:

- Provide a global platform for researchers, academicians, and professionals to share cutting-edge research and innovative ideas.
- Foster interdisciplinary collaboration and networking across engineering, education, business, economics, social sciences and humanities.
- Inspire the development of sustainable and inclusive solutions in line with global challenges.
- Encourage dissemination of high-quality research among global audiences

ICET2ES – 2025 transcends traditional boundaries, providing a platform for comprehensive exploration across a multitude of disciplines. The conference encompasses a wide scope that includes, but is not limited to:

3. Welcoming & Introduction

Welcome to the International Congress on Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities (ICET2ES - 2025), where we gather the brightest minds and the most innovative ideas to inspire, educate, and connect. Before we dive into today's agenda, let's take a moment to appreciate the vibrant atmosphere here at Amsterdam, Netherlands. This location has been thoughtfully chosen to provide an inspiring environment for our discussions and networking. The theme of the International Congress on Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities (ICET2ES - 2025), is “Innovations for Sustainable Development Practices: Engineering, Education, and Economic Perspectives”.

Our objective is to explore new technologies in Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities. Over the next two days, we have a packed schedule with two sessions, and ten keynote presentations from industry leaders and experts. This conference would not be possible without the hard work and dedication of many individuals. We would like to extend a special thank you to our conference managers, and organizing committee members.

11. Valedictory Function

11.1 Conference - Conclusion Summary

The International Congress on Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities (ICET2ES - 2025), held on 16th & 17th October, 2025 at Amsterdam, Netherland Organized by IFERP Academy brought together a diverse group of experts, practitioners, and enthusiasts from various fields. The central theme of the conference was " Innovations for Sustainable Development Practices: Engineering, Education, and Economic Perspectives " and it successfully fostered a collaborative environment for sharing knowledge, insights, and advancements to achieve SDGs.

Key Highlights:

Keynote Speakers highlighted the recent breakthroughs and the potential for future developments in Educational Research, Social Science and Humanities.

Research Presentations:

Over 116 research papers were presented, covering a wide range of topics. These presentations showcased cutting-edge research and fostered lively discussions.

Networking Opportunities:

The conference facilitated numerous networking events, allowing attendees to connect with peers, potential collaborators, and industry leaders. The virtual and in-person networking sessions were particularly well-received, enhancing professional relationships and sparking new partnerships.

Achievements and Outcomes:

- Several new collaborative initiatives were announced, aiming to address global challenges. These initiatives will leverage the collective expertise and resources of participating organizations.

- Publication of Proceedings including the conference proceedings, including research papers and keynote addresses, will be published. Future Conferences: Plans for the next conference were discussed, with suggestions for topics and formats that could further enhance engagement and impact.

Closing Remarks:

In the closing session, IFERP Academy expressed its gratitude to all the participants, academic partners, sponsors, and organizers. IFERP Academy highlighted the conference's success in achieving its objectives and underscored the importance of continued collaboration and innovation. Attendees left with a sense of accomplishment and a renewed commitment to advancing in their fields.

The conference concluded on a high note, with participants energized and motivated to apply the insights gained to their respective fields. The event not only celebrated current achievements but also set a forward-looking agenda for future research and development.

12. Vote of Thanks

Dear Researchers, Academicians & Students,

As we draw to the close of this remarkable International Congress on Emerging Trends in Engineering, Education, Business, Economics, Social Sciences, and Humanities (ICET2ES - 2025), it is our honor and privilege to extend a vote of thanks on behalf of the organizing committee. Today has been a day filled with insights, inspiration, and invaluable networking opportunities, and none of this would have been possible without the collective efforts of many individuals and organizations.

Firstly, we would like to express our deepest gratitude to our esteemed speakers. Your expertise, thoughtful presentations, and engaging discussions have been the highlight of this conference. You have not only enlightened us with new knowledge but have also inspired us to think critically and creatively about the challenges and opportunities in our field.

A special thanks to our dedicated organizing committee and volunteers. Your hard work behind the scenes, meticulous planning, and tireless efforts have ensured that everything ran smoothly. Your passion and dedication are truly commendable, and this event could not have happened without you. We are also grateful to our attendees. Your active participation, thoughtful questions, and enthusiastic engagement have added great value to this conference. It is your eagerness to learn and share that makes the events like this so rewarding and worthwhile.

We would like to acknowledge the venue staff for their excellent service and hospitality, providing us with a comfortable and conducive environment for our discussions and networking.

Finally, I want to thank everyone who has contributed, in big ways and small, to the success of this conference. Whether you were a speaker, sponsor, attendee, or volunteer, your involvement has been crucial.

As we conclude, let us take with us the knowledge we have gained, the connections we have made, and the inspiration to drive forward in our respective fields. We look forward to seeing you at future conferences and continuing these valuable conversations.
