ICAKMPET-2026

1.1 Conference Overview

6th International Conference on Advancing Knowledge from Multidisciplinary Perspectives in Education, Engineering & Technology (ICAKMPET-2026), scheduled for 24th and 25th January 2026 in Cebu, Philippines, will bring together global scholars, researchers, academicians, industry experts, and policymakers to exchange innovative ideas and best practices. Centered on the theme *“Shaping Global Impact: Pioneering Education, Engineering, and Technology for a Sustainable Tomorrow,”* the conference promotes interdisciplinary collaboration addressing contemporary challenges and future solutions. Organized by Bulacan Agricultural State College, Tawi-Tawi Regional Agricultural College, Marinduque State University, and IFERP Academy – Thailand Society, ICAKMPET-2026 offers keynote sessions, technical tracks, networking opportunities, and impactful knowledge-sharing platforms.

1.2 Conference Theme

The theme *“Shaping Global Impact: Pioneering Education, Engineering, and Technology for a Sustainable Tomorrow”* reflects ICAKMPET-2026’s commitment to fostering innovation that addresses pressing global challenges. It highlights the vital role of interdisciplinary collaboration in transforming teaching methodologies, advancing engineering solutions, and leveraging emerging technologies for social and environmental sustainability. The theme encourages participants to explore resilient systems, smart infrastructures, digital transformation, green technologies, and inclusive educational models that empower future generations. By uniting diverse perspectives from academia, industry, and policy, ICAKMPET-2026 aims to inspire research-driven strategies and scalable solutions that contribute meaningfully to sustainable development goals and long-term global progress.

1.3 Objectives & Scope of the Conference

6th International Conference on Advancing Knowledge from Multidisciplinary Perspectives in Education, Engineering & Technology (ICAKMPET-2026) aims to create a dynamic global platform for researchers, educators, professionals, policymakers, and innovators to share cutting-edge research, practical insights, and transformative solutions. The conference seeks to promote interdisciplinary dialogue

ICAKMPET-2026

that bridges theory and practice, encourages collaborative partnerships, and addresses complex societal challenges through integrated approaches.

Key objectives include fostering innovation in teaching and learning, advancing sustainable engineering practices, exploring emerging and disruptive technologies, and supporting research that contributes to economic growth, environmental stewardship, and social well-being. ICAKMPET-2026 also emphasizes capacity building, knowledge transfer, and industry-academia collaboration to ensure that research outcomes translate into real-world impact.

The scope of the conference spans a wide range of topics, including educational reform and digital pedagogy, smart infrastructure, renewable energy systems, artificial intelligence, robotics, data science, green manufacturing, cybersecurity, and technology-driven sustainability initiatives. By welcoming multidisciplinary contributions, ICAKMPET-2026 aspires to cultivate meaningful discourse, inspire future research directions, and shape globally relevant solutions for a resilient and sustainable tomorrow.

Conference - Conclusion Summary

Key Highlights:

ICAKMPET-2026 featured inspiring keynote addresses, thought-provoking panel discussions, and diverse technical sessions aligned with its sustainability-focused theme. The event fostered strong interdisciplinary engagement and global participation.

Research Presentations:

Participants presented innovative studies across education, engineering, and technology, showcasing practical solutions and future-oriented research. The sessions encouraged critical dialogue and knowledge exchange.

Networking Opportunities:

Delegates connected through interactive forums, collaborative meetings, and informal discussions, building international partnerships and exploring future research and industry collaborations.

Achievements and Outcomes:

The conference strengthened academic networks, promoted collaborative projects, and facilitated the dissemination of high-impact research. Several initiatives for joint studies and publications were initiated.

Closing Remarks:

The organizing committee expressed gratitude to all contributors and reaffirmed its commitment to advancing multidisciplinary scholarship. ICAKMPET-2026 concluded with optimism and anticipation for future editions.

9. Vote of Thanks

On behalf of the organizing committee of ICAKMPET-2026, we extend our sincere gratitude to all who contributed to the successful conduct of the 6th International Conference on Advancing Knowledge from Multidisciplinary Perspectives in Education, Engineering & Technology, held on 24th and 25th January 2026 in Cebu, Philippines. We express our heartfelt appreciation to the organizing institutions – Bulacan Agricultural State College, Philippines; Tawi-Tawi Regional Agricultural College (TRAC); Marinduque State University (MARSU); and IFERP Academy – Thailand Society – for their vision, leadership, and unwavering support.

ICAKMPET-2026

We are deeply thankful to our distinguished keynote speakers, session chairs, reviewers, and advisory committee members for enriching the conference with their expertise and guidance. Our sincere thanks also go to all presenters, authors, and delegates whose active participation made the discussions vibrant and meaningful. We gratefully acknowledge our sponsors, partners, and volunteers for their dedication and seamless coordination throughout the event.

Special appreciation is extended to the local organizing team in Cebu for their hospitality and meticulous arrangements. With collective efforts and shared commitment, ICAKMPET-2026 achieved its mission of fostering multidisciplinary collaboration and advancing knowledge for a sustainable future.
